

CONTENTS

Lidia Palese

On the stability of the rotating Bénard problem.....4

Marko Kostić

Generalized well-posedness of hyperbolic Volterra
equations of non-scalar type..... 21

Daniel Wachsmuth, Gerd Wachsmuth

Optimal control of an oblique derivative problem.....50

Constantin Fetecau, Muhammad A. Imran, Ahmad Sohail

On some unsteady motion of second grade fluids
in a rectangular edge.....74

Constantin P. Niculescu, Gabriel T. Prăjitură

Some open problems concerning the convergence of
positive series.....92

Short Notes

Namita Das

Toeplitz operators with bounded harmonic symbols.....108
